

# 49CFR/DOT COURSE SYLLABUS

## GENERAL INFORMATION

### DESCRIPTION

The Hazardous Materials Regulations (HMR) set forth detailed training requirements aimed to reduce and prevent hazmat incidents during the transportation of dangerous goods. Violations of the HMR are subject to civil penalties brought forth by the Department of Transportation (DOT).

Hazmat training is one of the requirements for which the DOT sets a minimum penalty for noncompliance, per violation.

### EXPECTATIONS AND GOALS

This course will provide the requisite understanding and general principles behind the required training topics in the 49 CFR, including *general awareness*, *function-specific training*, *security awareness*, and *safety training*.

This course will also provide an overview of UPS specific policies regarding the transport of hazardous materials.

\*No prior knowledge and hazmat experience is required to complete this course.

## COURSE MATERIALS

### REQUIRED TEXT
