

## OUR VISION

Our vision is a world where all children have equitable access to resources that help them learn to read.

## OUR MISSION

Our mission is to work with libraries and schools to create awareness and provide education about the process of learning to read and to provide access and operational support to libraries and schools creating collections of decodable books and initiating literacy hubs.

**Libraries and communities can change the culture of literacy through equitable access to resources—we can help!**

## OUR WORK

TMKTR is the only nonprofit working with public and school librarians and library staff to provide education and support initiating collections of decodable books and literacy resources. Decodable books are connected to the phonics skills children have been taught and provide essential practice in reading text with accuracy and automaticity. Many libraries do not know about or stock decodable books, and access is limited to parents purchasing the books themselves.

TMKTR provides training to learn about decodable books and offers support in initiating collections and educating the district and community about how to use the resources. Libraries provide equitable access so all children can learn to read using decodable books.

### Professional Development

Education! Learn why literacy is a human right and how libraries support equitable literacy solutions. Education about a broad range of literacy topics from common signs of struggling readers to decodable books, outreach, and literacy events.

### Support Initiating Collections

Create a literacy hub! Step-by-step support choosing decodables and literacy resources, ordering, cataloging, and shelving.

### Awareness of Literacy Resources

Reach your community! Guidance educating the community about the collection and ways to use decodable books and literacy resources to support skilled reading.
