

## Launch of the Call for Proposals

Under the conference theme “**Time to Innovate: Adapting Together**”, the Call for Session Proposals, Abstracts and Posters is now open for the 7th Edition of Adaptation Futures 2023 Conference, being held in Montréal (Québec) Canada from October 2 to 6, 2023. Submissions can be submitted both in English and French.

We value diversity and inclusivity so the conference would like to invite submissions from a large range of specialists: climate change adaptation researchers, practitioners, early career researchers, community representatives, policymakers, industry representatives, etc. As indicated below, you can choose to submit a virtual poster presentation, a paper presentation or a session. [Click here to open the detailed Flow of proposal submission process.](#)

Abstracts can be submitted in different formats and to promote knowledge exchange and co-learning for actionable solutions, we encourage other submission format other than traditional paper and poster presentations such as knowledge sharing session, knowledge exchange session and knowledge co-production. For further information on these types of sessions [please click here](#).

For all submission guidelines, [please click here](#).

The deadline to submit an abstract is **Monday, January 23, 2023**.

Registration and hotel reservations for the AF2023 will open in March 2023.

**We look forward to welcoming you to Montréal in October 2023. For any questions, please contact the AF2023 Conference Secretariat – JPdL ([af2023@jpdL.com](mailto:af2023@jpdL.com)).**

Sincerely,  
**Alain Bourque**  
Executive Director, Ouranos

**Anne Hammill**  
Senior Director, Resilience, International  
Institute for Sustainable Development (IISD)
