Taking Play Seriously

Playgrounds for Councils
& Landscape Architects

Made in Australia

Over 38 years of innovative playground adventures for thousands of children across Australia.

Since 1983, we have developed creative, safe and enjoyable playground experiences for thousands of children. We have a proven track record within the playground industry for high equipment quality, innovative playground design, Standards compliance and impressive service.

We have been supplying equipment for a wide range of clients including local government, educational institutions and the tourism industry for many years, with extensive installations Australia wide.

The wealth of experience and a practical working knowledge of the Australian Standards enables us to provide a complete range of services extending from initial consultation and design, through to installation, inspections and service.

Why adventure + ?

We take play seriously
