## WHO WE ARE

Willplay is a 100% Australian owned family business based in Bundaberg Queensland. We design and manufacture play, fitness and recreational equipment for various sectors throughout Australia.

Our supply partners in Victoria, Blade Recreation have over 35 years experience in supplying play and fitness equipment to the Victorian market. Our passionate design team have a combined 40 years experience in the design development and manufacture of playground and recreational equipment. We are constantly researching new manufacturing techniques and new materials, to ensure we are supplying our customers the best quality and value possible.

WillPlay understands that when our customers purchase a play solution from us they are making a long-term investment. Our customers can rest assured that Willplay's products are engineered to last for decades and are made from the highest quality materials.

## WHAT WE DO

At Willplay we strive to give our clients the absolute best value when it comes to their new playspace. We take the worry out of your investment by offering complete turnkey solutions, tailored to meet your specific site and budgetary requirements. From design and certification through to installation and softfall, our experienced designers, project managers and installation teams ensure that your fit for purpose play system is completed on time, the first time. Our internal quality systems ensure a smooth transition to handover and our after sales support will ensure many safe years of play.

## SUSTAINABLE PRACTICES

All Willplay systems are built using recycled or recyclable materials, ensuring our dedication to better, safer play for future generations. Willplay have aligned ourselves with Australian suppliers and manufacturers that specialise in recycled and recyclable materials. All WillPlay systems are designed to meet the requirements for 'Full Coastal Specification'.
