Adult

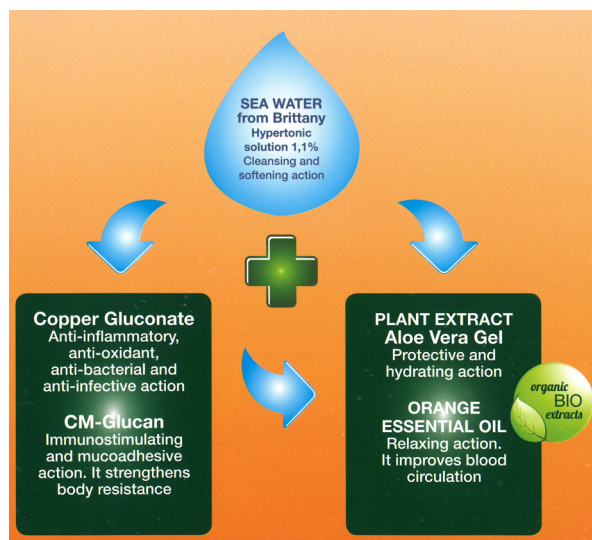

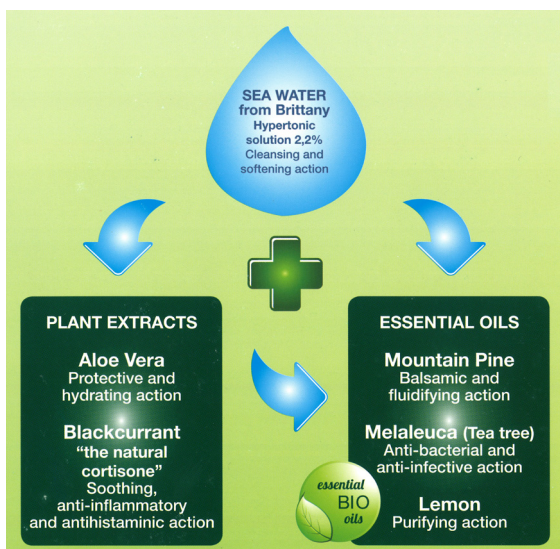

OTOSAN NASAL SPRAY®

Baby

**Natural multi-action
for adults**

**Delicate multi-action
for babies and kids**

**IMMEDIATE EFFECT AND DEEP
CLEANSING OF THE NASAL CAVITIES**

When the problem is blocked nose...

**VIRUSES OR
ALLERGENS**

**LOCAL
INFLAMMATION**

CONGESTION OF THE NASAL MUCOSA

- ⇒ blocked and runny nose
- ⇒ nasal discharge
- ⇒ watery eyes
- ⇒ sore/itchy nostrils
- ⇒ frequent sneezing
- ⇒ headache and discomfort

Inflammation of the upper respiratory tract and nasal mucosa.

- It can occur due to **viruses** (in winter) or **allergies** (in spring);
- It can be caused by rhinitis, sinusitis, external irritant agents or as a result of post-surgery;
- Every year, it affects more than 50% of the population in Europe
 - ⇒ **adults** can be affected twice a year on average, also due to emotional stress and a weak body;
 - ⇒ **children** can be affected from 4 to 8 times a year when they attend nursery school or school and during the first months of life when they have not yet developed antibodies.

The solution is OTOSAN® NASAL SPRAY

SIDE EFFECTS AND CONTRAINDICATIONS OF DECONGESTANTS CONTAINING VASOCONSTRICTORS:

- Repeat use (more than 3-5 days) may cause damage to the nasal mucosa and lead to frequent use, which can cause addiction;
- They may increase blood pressure
- They are absolutely contraindicated in patients with hypertension or heart disease;
- Nasal decongestants containing sympathomimetic drugs for systemic use are contraindicated in children under the age of 12 because they may provoke neurological disorders
