

**Constipation
won't be a problem
to your kids with**

DocuSol

**The fastest relief
in 2 -15 minutes only**

- **DocuSol**^{Kids} is a fast-acting mini-enema working as stool softener which gently assist with bowel movements within 2 to 15 minutes.
- **DocuSol**^{Kids} contains a delivered dose of 100mg docusate sodium in polyethylene glycol base.
- **DocuSol**^{Kids} action is local and physiological by drawing water into the bowel from surrounding body tissues. The increased mass of stool promotes a bowel evacuation. There is no risk for dependence.
- **DocuSol**^{Kids} first-of-its-kind formula was developed for general constipation in children ages 2–12 unwilling to swallow medications (with adult supervision).

Manufacturer: **Alliance Labs USA**

Why **DOCUSOL** Kids ?

Control

Fast and predictable relief in 2 -15 minutes, you don't have to wait for +24 hours to have normal defecation.

Comfort

Docusate sodium, the active ingredient in **DOCUSOL**® allows water and fats to get into the stool. This softens fecal matter and makes defecation more comfortable.

Convenience

Easy rectal usage for patients with reflux issues or nausea. Soft latex-free tube. Minimal volume a 5 milliliter tube delivering 283mg of docusate sodium.

DOCUSOL Kids is different from:

☐ Hyperosmotic Laxative

Glycerin suppository

- Glycerin is a mild irritant which increases the frequency of bowel movement by stimulating the bowel muscles to contract.
- May be associated with rectum dehydration, irritation, abdominal pain and loose stools.

DOCUSOL

Works as a stool softener hyperosmotic laxative by drawing water into the bowel from surrounding body tissues, softening the stool and promoting a bowel movement.

☐ Stimulant laxatives

Bisacodyl Pills

- Make your body go by forcefully stimulating the nerves in your colon.
- Stomach/abdominal pain or cramping may occur.

☐ Osmotic laxatives

Lactulose Syrup

- Onset of action is between 24 to 72 hours.
- It increases stool frequency in chronically constipated patients and is dose dependent because it is fermented by colonic bacteria. Gas and bloating usually limit its clinical use.

DOCUSOL

works in 2 – 15 minutes only. Predefined dose 100 mg docusate sodium in 5 ml mini enema.
