

Cookie Policy

IAU website uses cookies to provide users with extensive functions, to make the website more accessible, and to optimize it. Cookies are small text files that are saved to user device via the web browser.

Most cookies are only required for as long as you access the current service or continue your session. They are removed, or they expire, when you leave IAU website. These are session cookies.

Permanent, or functionality, cookies are saved for a longer period. Their role is to recognize a user when opening IAU website at a later point. It means that the user can call up saved settings again, e.g. specify the relevant language. They are automatically erased upon the expiry of a certain period.

You can set your browser not to accept or remove cookies at any point. However, in certain cases, some of the features on our website may not function as a result.
