

Desjardins Global Asset Management

June 2021

Established in 1998, Desjardins Global Asset Management (DGAM) is one of Canada's largest asset managers. With offices in Montreal, Quebec City and Toronto, our team of over 50 investment professionals designs solutions tailored to our clients' unique needs.

We infuse our cooperative values into our investment process to ensure we are helping our partners and clients' assets grow in a sustainable and responsible manner.

Our pillars

The **ethics and integrity** of our people are the foundation of our business practices and management philosophy.

We use an approach rooted in **collaboration** to design custom solutions that can adapt to the changing needs of our clients.

Our values are what drive us to establish **responsible investment** best practices to develop investment solutions that will help communities grow sustainably for generations to come.

Our investment approach

We draw on our **diversified expertise** and long-term vision to grow our clients' assets and deliver sustainable returns.

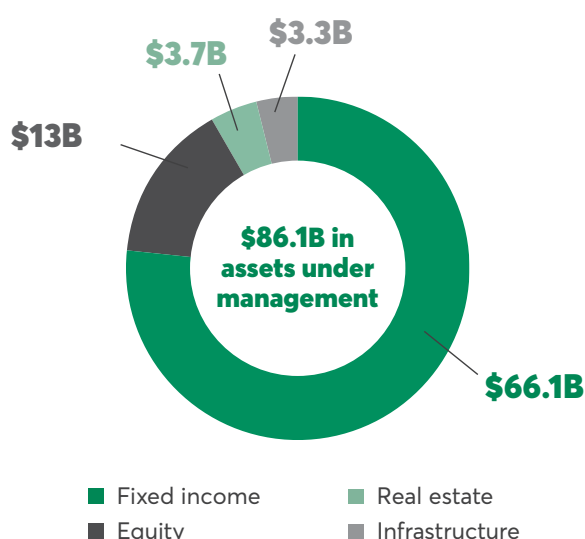

Our **rigorous processes, proven portfolio management systems** and **robust governance** allow us to manage risks and their impacts.

Our **research and innovation** methods ensure that our strategies continue to aim for the best results for our clients in an ever-changing environment.

We are one of Canada's largest asset management firms.

Responsible investment

Our responsible investment team incorporates environmental, social and governance (ESG) criteria to evaluate their risks and impacts on long-term value of investments.

ESG criteria are integrated into our financial analyses and reflected in our shareholder engagement, innovation and collaboration.
