Engage with companies on top-priority ESG themes to generate transparency and performance.

ISS ESG's Collaborative Engagement Services allow investors to participate in a joint outreach and dialogue with companies on material sustainability-related themes. By engaging collaboratively, institutional investors can increase their focus on ESG issues and effectively communicate their concerns to corporate management.

ISS ESG facilitates engagement on behalf of the participating clients to promote positive change through active ownership and dialogue. This may include ongoing dialogue with targeted companies for enhanced disclosure, a push for improved sustainability performance or mitigation of ESG risks.
