

Dr. Raymond Liu:

Raymond Liu, MD is currently the Director of Research of Hematology/Oncology at Kaiser Permanente Northern California and the Kaiser Permanente San Francisco Director of Cancer Survivorship. He also serves as faculty of the Kaiser Permanente Hematology-Oncology fellowship program and is an Assistant Clinical Professor at University of California, San Francisco.

He joined Kaiser Permanente because its comprehensive health care model provides the optimal environment for taking care of people. At Permanente Medicine, he is heavily involved in cancer research dedicated to finding new and innovative treatments for patients, and in helping patients and their families lead more meaningful and productive lives. Within this framework, he states, "I am privileged to hear patients' personal stories, realizing that I become involved in their lives, and the lives of their families, at critical junctures. It is important for me to look at the whole patient, not simply a particular medical issue."

His research focuses on better understanding and improving the patient experience, most recently in relation to the COVID-19 pandemic when his article, *Telehealth in Oncology During the COVID-19 Outbreak* was published in the Journal of Clinical Oncology. He has published numerous other articles in peer-reviewed publications on a variety of oncology topics.

Dr. Liu received his undergraduate degree from Harvard University and his medical degree from University of Chicago's Pritzker School of Medicine. He completed his residency and fellowship at University of California, San Francisco.

Dr. Lisa Law:

Lisa Law, MD is currently the Kaiser Permanente Northern California Malignant Hematology Subspecialty Lead. She's a volunteer member of the American Society of Clinical Oncology (ASCO) Clinical Practice Guideline Committee and the Annual Meeting Education Committee in Hematologic Malignancies.

Lisa Law, MD grew up in the San Francisco Bay Area and attended the University of California at Berkeley with a major in Molecular and Cell Biology and a minor in Music. She received her medical degree from the Boston University School of Medicine and her residency training in Internal Medicine at UC Davis Medical Center. She completed her fellowship in Hematology and Oncology at UC Davis Cancer Center and a fellowship in Blood and Marrow Transplantation at Stanford University.

Dr. Law's focus in Hematology and Oncology is to provide compassionate, comprehensive, and up-to-date care for patients with a diagnosis of cancer or blood disorder. Her subspecialty interest is in blood disorders, in particular leukemia, lymphoma, myelodysplastic syndrome, and

myeloproliferative disorder. Dr. Law emphasizes her respect towards patients' autonomy in decision making and is a strong advocate for maintaining a good quality of life.
