

COVID SAFETY INFORMATION

MedscapeLIVE! is committed to taking ongoing precautions to ensure the health and safety of our attendees and staff. We have incorporated important knowledge learned during the pandemic and embedded them into our onsite/in-person operations.

We will be following both national and local guidelines as well as current venue procedures implemented to keep all guests and attendees safe. In addition, we will be providing masks, hand sanitizer as well as practicing modified social distancing.

If you have any questions or concerns, please feel free to reach out to any member of our team! We look forward to seeing you in person again!
