Expertise

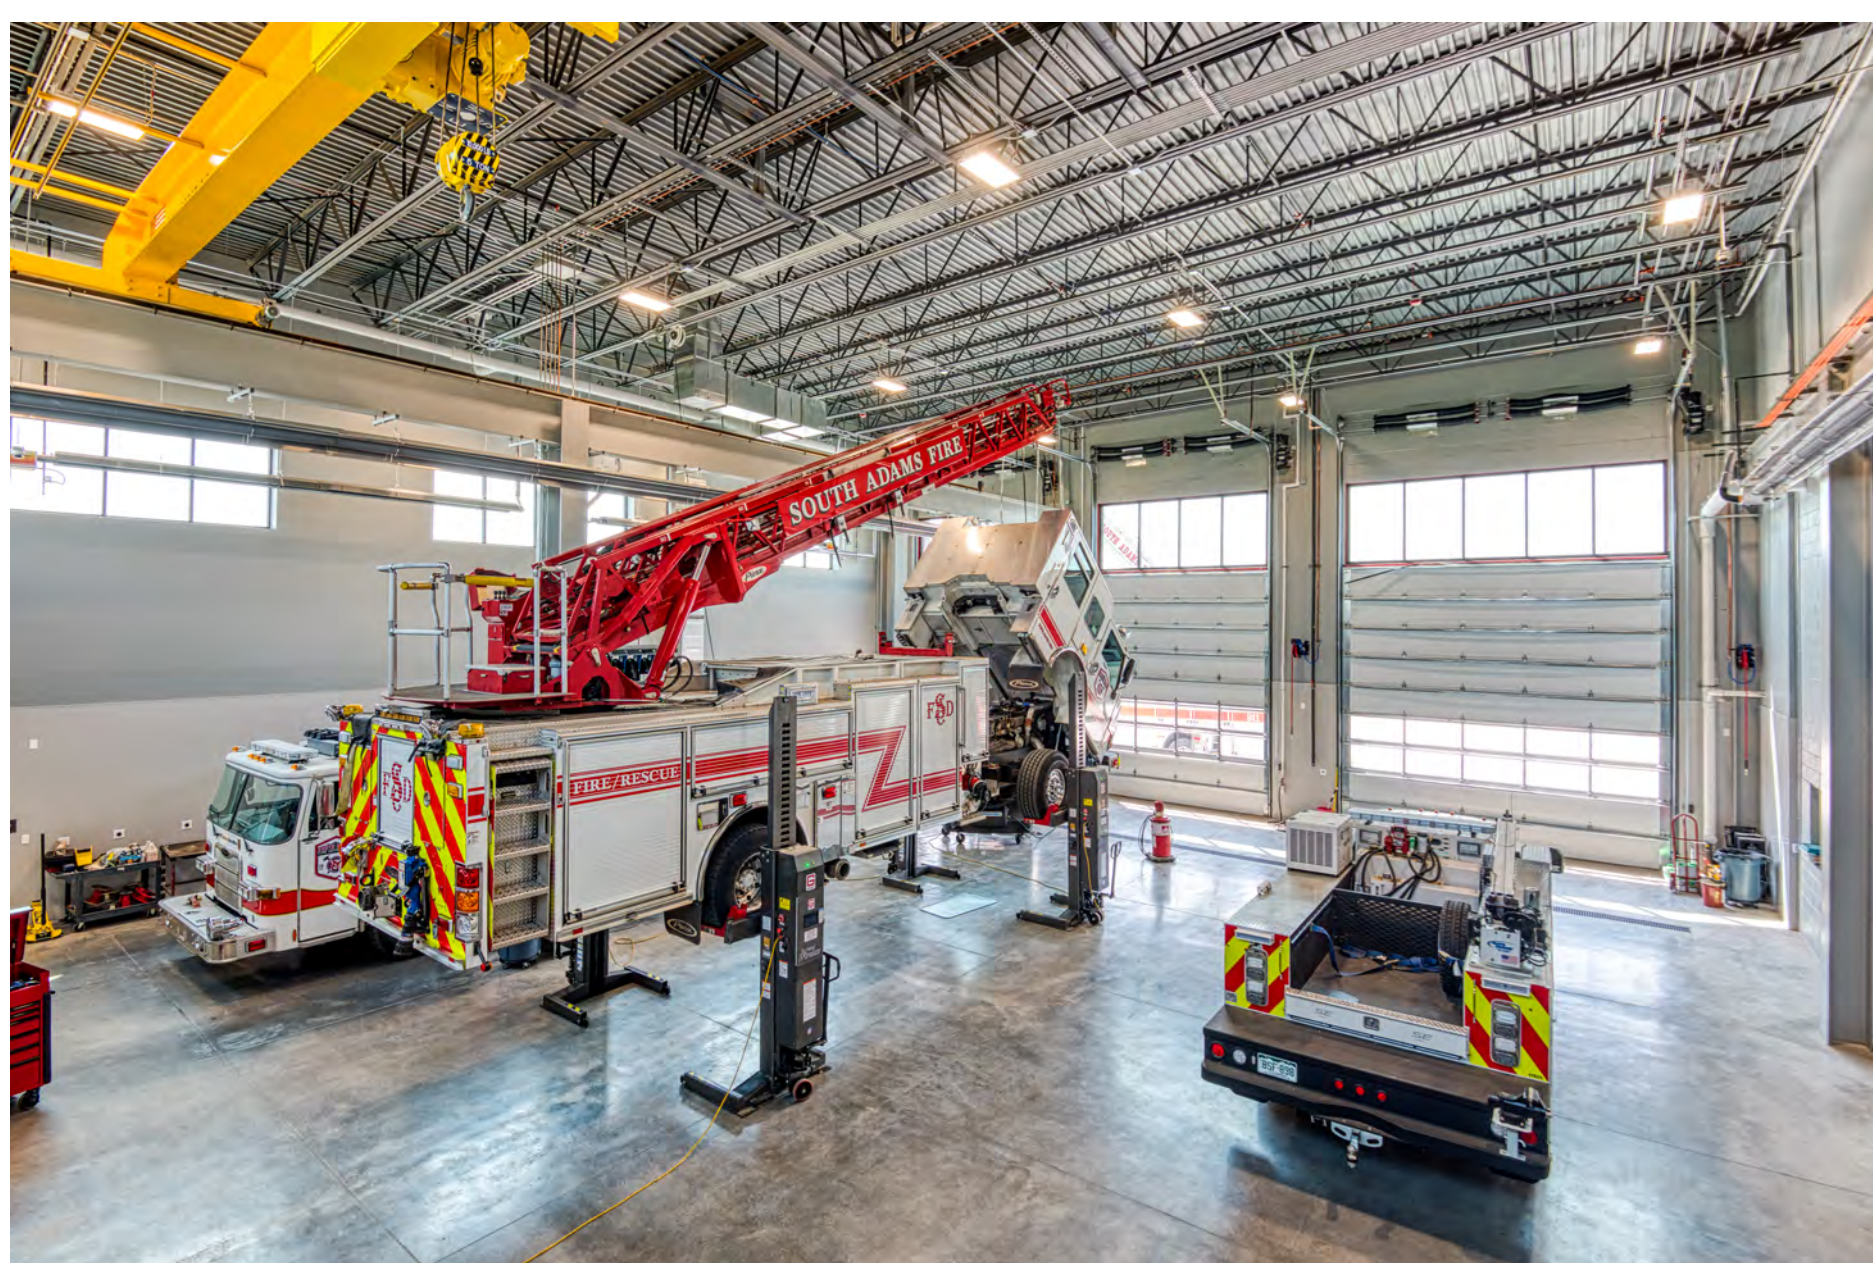

- Facility Development That Supports Your Mission
- Planning, Design & Construction Expertise
- Concept & Early Budget Development
- Strategic Planning & Campaign Support
- Complete Client Partnership
- Dependable Timelines & Reliable Budgets
- Proactive & Comprehensive Participation
- Exceptional Owner's Representation

Our extensive experience with fire districts enables us to manage every aspect of your project — from predesign through construction. As your accountability partner we will work to ensure you are informed, aware of all your options, and that your projects will deliver the predictable results you need and value the community demands.

“Through [DCS] expertise, they are able to anticipate and mitigate problems with projects before they arise. DCS cares about our organization and it shows through their continued dedication on all of our projects.”

Bob Olme
Program Manager & Assistant Chief

*Urban Search & Rescue (USR)
Colorado Task Force 1*
