Support mental wellness & resiliency

Created in 2003 by two attorneys (and former law enforcement officers), Lexipol was born from a vision of a better, safer way to run a public safety agency.

It was a perfect combination: Bruce Praet's courtroom experience representing public safety agencies and Gordon Graham's foundation in risk management principles, including a unique approach to training he created while at the California Highway Patrol.

From that foundation, Lexipol grew to form an entire risk management solution for public safety and local government. We started by developing comprehensive, continuously updated policies for public safety agencies. Then we added services such as online training, mental health resources, accreditation assistance and grant services, as well as the digital communities Police1, FireRescue1, Corrections1, EMS1 and Gov1.

2 SERVING
MILLION
FIRST RESPONDERS

Today, we serve more than 2 million public safety and government professionals with a range of informational and technological solutions to meet the challenges facing these dynamic industries.

THOUSANDS OF YEARS OF EXPERIENCE ON YOUR SIDE

We've grown a lot from those first days when Bruce, Gordon and a few other early believers wrote policies on their days off.

Today, Lexipol is backed by the expertise of more than 400 people with experience in constitutional law, civil rights, ADA and discrimination, mental and physical health, psychology, labor negotiations, Internal Affairs, use of force, hazmat and a whole lot more.

That means no more trying to figure out policy and develop training or wellness content on your own.

PROVIDING YOU PEACE OF MIND

Our customers choose Lexipol to make an investment in the safety and security of their personnel, their agencies and their communities. We help agencies address issues related to policies, training and wellness that create substantial risk, including:

- Inconsistent and outdated policies
- Lack of technology to easily update and issue policies and training electronically
- Unchecked mental health needs of staff
- Difficulty keeping up with new and changing legislation and practices
- Inability to produce policy acknowledgment and training documentation
- Unfamiliarity of city legal resources with the intricacies of public safety law

ON TOP OF INDUSTRY CHANGES

Our content development teams continuously monitor for new state and federal legislation—we reviewed more than 15,000 new laws and regulations last year—as well as case law and research reports. When new challenges arise—such as COVID-19, the opioid epidemic or an increase in active shooter events—we create resources and training to prepare your personnel to meet these risks. So you can spend more time focusing on operational priorities and less time worrying whether your policies and training are up to date.

TRUSTED BY BIG & SMALL

Community protection comes in all sizes. That's why we designed Lexipol's policy, training and wellness solutions to work with agencies big and small and those in between. We partner with more than 10,000 public safety agencies and municipalities across the United States—law enforcement agencies, career and volunteer fire departments, EMS agencies, corrections facilities, juvenile detention facilities, probation departments and local government organizations *just like yours*.
