# TRANSFORMING THE EMS JOURNEY

Traditionally, in 911 centers across the country there is only one option available—an ambulance transport to an Emergency Department. Global Medical Response's Nurse Navigation solution is changing that EMS paradigm with a trusted model that matches the appropriate level of care based on the callers medical need. The GMR Nurse Navigation solution is active today with the City of Aurora, City of Boulder, City of Longmont, City of Pueblo, and Teller County. We'll be launching Fremont County by the end of the year.

Free up EMS resources  
for true emergency calls

Customize to meet the  
needs of your community

Reduce unnecessary  
utilization and spend

Improve firefighter  
retention and gain  
operational efficiencies
