EXHIBITOR					
Self Esteem, Poise, & Posture	Confident & self-assured, shows item to its best advantage; great use of gestures, eye contact, and facial expressions.	Good confidence, poise, posture, gestures, expressions, and eye contact.	Presents item with limited enthusiasm, poise, eye contact, gestures, or expressions.	Appears awkward or uncomfortable when presenting item. Lack of gestures, eye contact, and facial expressions.	
Personal Appearance & Grooming	Neat, spotless, clean, well-groomed, well-pressed appearance.	Well groomed, neat appearance.	Minor problems with grooming; shoes or pressing need attention.	Appearance and grooming need more attention. Item appears dirty and not pressed.	
Verbal & Written Communication	Thorough knowledge of construction, fabric, fiber content, and durability.	Able to answer questions about item care, fabric content, construction techniques.	Basic knowledge of construction techniques and cost vs. value.	Difficulty giving complete answers or providing answers to some questions.	
ITEM(S)					
Design	Learning skills challenged. Outstanding style for fabric, trim, construction; pleasing to look at. Colors are harmonious and material choices are suitable to design and function.	Appropriate skill level. Good balance of style for fabric, construction and function of item.	Relatively easy skills used. Design is simple but is suitable for material choice and function of item.	Learning new skills not demonstrated. Style very simple. Not suited to function. Design elements detract from appearance.	
Workmanship-Precision	Excellent precision of construction. Points and corners are precise. Item lays flat and seams are unobtrusive. Stitching is complementary to the item or unnoticeable.	Good stitching technique throughout item with minor imprecisions. Stitching is overall complementary to item.	Precision of stitching is fair with some areas needing improvement.	Entry has stitching defects that detract from overall appearance.	
Workmanship-Technique(s)	Well-constructed, durable, quality entry. Backing, binding, and tying/embellishments are enhancing to the piece and of excellent workmanship.	Minor construction flaws which do not affect the overall appearance or durability.	Construction techniques show, affecting appearance and durability.	Construction techniques and workmanship detract from item.	
General Appearance	Item is very pleasing to look at and touch. The item has a specialty quality that makes it attractive and interesting. Very clean, neat, and properly labeled.	Elements of the item complement each other and are well-suited for the item. Clean, neat, and properly labeled.	Suitable quality overall with some elements complementing each other. Cleanliness and/or neatness could be improved.	Looks incomplete; design elements are not cohesive. Lacking in cleanliness and neatness.
