AGENDA

Advancing Safety Management Implementation Across the Automated Driving System Industry: Initial Forum

Session 1: 15 April 2021 | 1:00 PM – 3:00 PM ET | Session 2: 20 April 2021 | 1:00 PM – 3:00 PM ET

Automated Vehicles (AV) hold great promise for improving safety, enhancing mobility, and increasing the sustainability of our planet. As we have seen in other industries, a proactive approach to safety management has the potential to positively contribute to public confidence in the technology. As the Automated Vehicle Safety Consortium (AVSC) completes their consensus-based standard for Safety Management Systems in the AV community, there is an opportunity to build a collaborative mechanism that will help the community apply this standard. During this initial meeting, senior safety members from the AV community will have an opportunity to learn and shape a way forward.

Session 1: 15 April
Envision the potential and opportunity for collaboration on safety management implementation

Time	Topic	Speaker
1:00	Welcome & Opening Remarks	Nat Beuse, Aurora Mark Rosekind, Zoox
1:15	Moderated Panel Discussion: Safety Management Implementation Experiences	Chris Hill, The MITRE Corporation, Moderator Jeffrey Miller, ORAU Paul Morell, American Airlines Nat Beuse, Aurora Mark Rosekind, Zoox
2:30	A Vision for Collaboration	Gregg Leone, The MITRE Corporation
2:45	Wrap-up and Sneak Peak of Session 2	Wally Feerrar, The MITRE Corporation

Session 2: 20 April
Actively brainstorm and identify opportunities for accelerating progress

Time	Topic	Speaker
1:00	Opening Remarks	Mark Rosekind, Zoox Nat Beuse, Aurora
1:10	Common Framework for Proactive Safety Management	Kent Hollinger, The MITRE Corporation
1:40	Facilitated Roundtable Breakout Sessions *Participants share insights and brainstorm ways to accelerate progress in specific areas of interest (e.g., evolving safety culture; harnessing data)*	*Facilitators vary by breakout*
2:25	Plenary Session: Debrief and Next Steps	Chris Hill, The MITRE Corporation
2:50	Closing Remarks	Mark Rosekind, Zoox Nat Beuse, Aurora

After each session concludes, MITRE will share session results and resources.
