

Mapping the human body across scales

Workshop Agenda

Offensive Zone - Le Germain MLS

Zoom Link: <https://cifar.zoom.us/j/84265514687>

Tuesday, May 24

09.00 Introductions

- Each member to introduce themselves
- Research background & questions they are currently working on & most excited about
- What perspective they hope to bring to the project of 'Mapping the Human Body Across Scales'

10.30 CIFAR Briefing and Q&A

- What CIFAR is looking for in a successful application & how a CIFAR funded global call operates
- The role of fellows, advisors, and associate fellows
- The on-going shaping of the programme once funded
- Overview of the organization of the written application

11.30 Proposal run through

- Quick run through of the proposal submitted in January
- Exploration of the two main themes:
 - Mapping every cell in the human body across scales and
 - Understanding humans as multiscale cellular ecosystems
- Sketch out the key themes and ideas

12:30 Lunch

13.30 Big ideas session

- Discussion of common interests, unique opportunities and new visions
- Brainstorming on research themes and directions of program
- Identifying major thematics and vision for a 5-year research program
- Identifying gaps in the current research expertise - what perspective are we missing?

18:30 Dinner together

Wednesday, May 25

09.00 Proposal Logistics (facilitated by CIFAR)

- Knowledge Mobilization
- Equality, Diversity and Inclusion
- Discussion of CIFAR proposal requirements

11.00 Second Best Ideas

- An hour to discuss your 2nd best idea' for our 5 year '*Mapping the Human Body Across Scales*' programme
- Alternatively - 2nd best idea for a high ROI smaller scale collaboration within the programme

12.00 Lunch

13.00 Summary and looking forward

- Recap of major themes identified
- Agree a mission statement / strategy points
- Timeline for writing full proposal

~15.30 Close
