

FEATURES & BENEFITS

40+ Years Experience

Our time-tested donor screening and specimen processing techniques have helped build more than 75,000 families.

Donor Selection

Our diverse catalog includes hundreds of donors that feature a variety of physical characteristics, ethnicities, religions, interests, and talents.

Highly Qualified Staff

Our dedicated donor recruiters, lab techs, genetic counselors, and medical directors have decades of experience helping grow families of all shapes and sizes.

Post Conception Services

Our Cord Blood Advantage® program, Sibling Registry, genetic counseling, and donor updates continue to contribute to your family's well-being long after your baby is born.

Quality Assurance

By maintaining the industry's highest quality standards, we take every possible step to make sure you receive the safest specimen possible.

CALIFORNIA CRYOBANK

CHOOSING THE RIGHT SPERM BANK MAKES CHOOSING THE RIGHT DONOR EASY

California Cryobank has been an innovator and leader in reproductive tissue banking since 1977.

Our reputation for outstanding quality and customer service has made us the #1 choice among physicians and their patients, servicing all 50 states and more than 40 countries worldwide.

We offer the industry's largest and most diverse selection of donors and donor information. Our highly qualified staff of medical directors, genetic counselors, and client service specialists provides the experience, care, and knowledge to assist you with all your donor sperm needs.

“Great donor selection. My mom said she wished she knew this much about my dad before she married him.”

OUR DONORS

Being a Cryobank donor means being the best. Less than 1% of applicants qualify. Applicants:

- Possess a sperm count/motility in the top 15-20% of the population
- Test negative for Chlamydia, Syphilis, HIV, Gonorrhea, HTLV, and Hepatitis
- Complete multiple interviews with our Donor Department to assess suitability for the program and confirm medical, educational, and personal information
- Complete genetic screening for up to 281 conditions and have family medical history evaluated by our genetic counselor
- Complete a clinical psychological assessment and criminal background check
- Have chart reviewed by a Quality and Medical Director

Once an applicant has met our strict requirements, he becomes a donor.

SELECTING YOUR DONOR

We make selecting your ideal donor easy:

- Premium donors recruited from world-class universities including UCLA, Stanford, Harvard, Columbia, and NYU among others*
- Anonymous and ID Disclosure Donors
- ICI, IUI, and IVF vials
- Comprehensive donor information including: Extended Donor Profile, Medical History, Genetic Test Summaries, Donor Personal Essays, Staff Impressions, Childhood and Adult Photo Series, Express Yourself, Facial Features Report, Donor Conversations, Keirsey Report, and Keirsey Q & A
- Donor Matching and Genetic Consultation Services
- DNA Advantage® Donors have been screened for 260+ genetic conditions

Questions about finding your ideal donor? Contact us at 866-927-9622

STEPS TO PURCHASE

Planning your insemination or IVF procedure can seem difficult. We hope to make the process easy and stress-free, by guiding you through these basic steps:

1. SIGN UP ON OUR WEBSITE

- Register online for an account
- Start searching for donors

2. DISCUSS WITH YOUR PHYSICIAN

- Number of vials to order
- Vial type to order - ICI, IUI, or IVF
- Personal Genetic Screening

3. CHOOSE YOUR IDEAL DONOR

- Select a Donor Information Subscription
- Schedule a Genetic Consultation (optional)
- Review donors' genetics screening results (GTS) with physician

4. PURCHASE YOUR VIALS

- Make your final donor selection
- Complete account forms
- Order your vials (including enough for additional cycles and possible siblings)

5. SCHEDULE SHIPMENT

- Schedule shipment (to arrive 2 days prior to your procedure)

“Words cannot express how grateful we are for your services. You guys were literally our angels in waiting.”

ADDITIONAL FEATURES

Visit us at CRYOBANK.COM to learn about our many pre/post conception services including:

- Family Today/Tomorrow
- Vial Buyback and Exchange Program
- Cryobank's Sibling Registry
- Cord Blood Advantage®

Through our sister company, CBR, you will receive free cord blood and cord tissue processing, plus one year of storage (a \$2,830 value). After that, you just pay the annual storage of \$180 per sample**

**Annual storage rate may change in the future.
