### **INTRODUCTION**

This workshop offers consultants and trainees hands-on experience with the da Vinci Xi surgical system and will offer small groups a high level of interaction.

With tuition on set-up, suturing, dissection, and other core skills applicable to robotic-assisted surgery, the workshop will utilise dry lab and simulation models.

#### **During the visit, you will get the opportunity to:**

- Learn about the Intuitive Gen 4 Technology – which will include a hands-on experience workshop
- Experience our digital platforms- My Intuitive App and SimNow
- Test drive our Advanced Energy instruments
- Hear from one of our proctors and learn about their da Vinci journey.

During the day there will be an opportunity to engage with all the attendees and ask questions.

#### **After this workshop, attendees will aim to:**

- Understand the basic working elements of the da Vinci Xi system
- Be familiar with instrument use, handling, camera control, needle driving, suturing, and dissection (in virtual reality), dry lab, and simulations
- Understand the basics of set up and use of the da Vinci Xi system
