

**ASIA 2023 SCIENTIFIC MEETING
APRIL 16-19, 2023
ATLANTA**

COURSE SCORING CRITERIA

INDICATORS:

- A. Clear research / clinical practice goal: Is there are clear SCI research and/or clinical practice goal stated?
- B. State of the art: Does the course outline demonstrate state of the art thinking / research / clinical practice approaches that is clearly linked to a clinical / basic science problem for the field?
- C. Speakers: Does the speaker list contain an appropriate mix of senior and junior investigators from the field of SCI with appropriate diversity, or has the course submitted adequately addressed why this can't be the case?
- D. Learning objectives: Are the learning objectives clearly stated and do they include some of the suggested terms to ensure our courses are appropriate for CME credits?
- E. Citations: Do the citations provided adequately demonstrate expertise of the suggested speakers with respect to topic content?
- F. COIs: Are there any COIs that should be taken into account?
