Administration

Major Sponsors

Sponsors

North American
Catastrophe Services, Inc.

Welcome to the New Jersey Emergency Preparedness Conference

Once again, the New Jersey Emergency Preparedness Association welcomes you to the 5th annual New Jersey Emergency Preparedness Conference. For those new to the conference, we are honored to have you aboard! This year, we've added a fourth track for the 1 1/2 days of the conference, to now include *Planning*, in addition to Weather, Domestic Preparedness and Response and Recovery. In each track, six breakout sessions will cover current critical issues and new subjects in each discipline. As always, attendees are free to stay in one track or move about throughout the conference.

Not surprisingly, the events of September 11, 2001 still influence our lives and particularly those of the emergency management professional. We've taken this into account and kept domestic preparedness well represented again this year. However, as you all know, life does go on and we cannot overlook that there have been several important changes and improvements in other respective areas of our work. We have been careful to ensure that these issues are fully covered in our 2003 agenda.

We trust you will enjoy this years conference. Feel free to attend whatever breakout sessions interest you and benefit your agency. For anyone who attended one of our training classes on Tuesday and Wednesday, we thank you for your support and interest. If at any time you have questions or comments for the Conference Committee, we welcome the input. Look for us - we will be on the floor and available at all times. Finally, no conference would be successful without the input and support from our emergency management community. Thank you and enjoy YOUR 2003 New Jersey Emergency Preparedness Conference.

The New Jersey Emergency Preparedness Association

(A Private Non Profit Corporation)

Board of Directors:

Edward Conover, *President*
William Melfi, *Vice-President*
George Haines, *Treasurer*
Vincent Jones, *Secretary*
Michael Caffrey, *Trustee*
James Eberwine, *Trustee*
George Martin, *Trustee*
Richard Mulvihill, *Trustee*
Christopher Neal, *Trustee*

Conference Planning Committee: The Board of Directors; Fred Abbate, NJUA; Mike Augustyniak, NJOEM; Mike Bailey, Pro-Net; Matt Custer, EPP; Pat Goelz, EPP; Jim Manski, Cumberland County OEM; Nick Massa, NJOEM; Tom Scardino, NJOEM; Gary Szatkowski, NWS and Eileen Unger, EPP.

Our thanks to Jennifer Blalock for the design of this years program and conference logo.

Printed programs compliments of State Farm Insurance.

Breakout Session Tracks:

DP - Domestic Preparedness **E** - Equipment **P** - Planning **R&R** - Disaster Response and Recovery **Wx** - Weather

Marc Hodges

Trajectory Analyst

Marc Hodges is a Trajectory Analyst for HAZMAT. He has worked for HAZMAT for 16 years as a member of the Modeling and Simulation Studies team. For the last 14 years, Marc has been the HAZMAT weather focal point and is active in tightening communications with the National Weather Service during spill events. Current research projects include Long Range Trajectory Forecasting and Wind Uncertainty Using Climatology.

Breakout Sessions

Terrorism Planning Overview (DP) - 10:45 am, Thursday, May 1, GEC Hall 3

Presented by: Joe Painting, NJOEM

This presentation will include a comprehensive review of counter-terrorism initiatives at the state level since last summer. It will incorporate the latest guidance from the Homeland Security Department and FEMA on local emergency planning for a terrorist incident. We intend to offer a forum to share your innovations and successes in this critical arena.

NBC Testing & Monitoring Equipment (E) - 10:45 am, Thursday, May 1, Seaside (Same as 1:00 pm presentation)

Presented by: United States Marine Corp., Chemical Biological Incident Response Force

Learn about currently available standards and testing for NBC Testing and Monitoring Equipment.

USDOT Hazmat Training Requirements (P) - 10:45 am, Thursday, May 1, Rolling Chair

Presented by: Tony Murray, United States Department of Transportation

Discuss the hazmat employer and employee training requirements in 49 CFR 172.700.

Community Emergency Response Teams (CERT) Overview (R&R) - 10:45 am, Thursday, May 1, Pageant Suite

Presented by: Thomas Scardino - NJOEM

CERT provides opportunities for people across the country to participate in a range of measures to make their families, their homes and their communities safer from threats of crime, terrorism and disasters of all kinds. This CERT presentation will provide an overview of the program and instruct you on how to join and form a team in your local area.

Hurricanes & Nor'easters (Wx) - 10:45 am, Thursday, May 1, Showroom

Presented by: Steve Lyons, The Weather Channel

Learn more about how these storms affect our region from one of the top professionals in the field, and truly a friend of the New Jersey Emergency Preparedness Conference. This presentation will cover the similarities, and the differences, between tropical cyclones and their winter-time counterparts, nor'easters.

Counter Terrorism / Suicide Bombings (DP) - 1:00 pm, Thursday, May 1, Showroom

Presented by: Lt. John Rowland - NYPD

This session will deal with case studies exploring the techniques used in identifying suicide bombers, what signs to look for and warning sign when dealing with suicide bombings.

NBC Testing & Monitoring Equipment (E) - 1:00 pm, Thursday, May 1, Seaside (Same as 10:45 am presentation)

Presented by: United States Marine Corp., Chemical Biological Incident Response Force

Learn about currently available standards and testing for NBC Testing and Monitoring Equipment.

Firewise in the Jersey Pines (P) - 1:00 pm, Thursday, May 1, Pageant Suite

Presented by: Maris G. Gabliks, New Jersey Forest Fire Service

Topic of current interest involving the community through education, it is designed to provide an overview of the training that is available to fire personnel who confront fire protection issues dealing with the growing wild and urban interface areas in and adjacent to the Pine Barrens Region of New Jersey.

USDOT Placarding Requirements (R&R) - 1:00 pm, Thursday, May 1, Rolling Chair

Presented by: William Murphy, United States Department of Transportation

Learn how to determine the required placarding when offering and/or transporting hazardous materials by all modes of transportation.

December '92 Nor'easter (Wx) - 1:00 pm, Thursday, May 1, GEC Hall 3

Presented by: Gary Szatkowski, Meteorologist-in-Charge, National Weather Service, Mt. Holly, NJ

Case study of the storm with the greatest impact on the New Jersey and Delaware coasts since the 1962 storm. Learn about similarities and differences between this storm and other nor'easters; how well these types of storms can be forecast, and what would happen if the '92 storm struck today.

EMS Tactical and Special Operations (DP) - 2:15 pm, Thursday, May 1, GEC Hall 3

*Presented by: William Castagno, EMS Supervisor, University of Medical and Dentistry of New Jersey, Newark;
Captain Bill Malast, New Jersey State Police*

The EMS and emergency services community are frequently tasked with planning for major events and responding to incidents involving tactical operations. This session will explain what procedures and planning techniques are utilized when coordinating and responding to major events such as the Republican National Convention. Discussion will include how to set up and maintain a command post effectively and what to expect when dealing with a major incident.

The Role of Insurance in Disasters and Disaster Recovery (P) - 2:15 pm, Thursday, May 1, Pageant Suite

Presented by: Craig Parker, CPCU, CLU Underwriting Superintendent, State Farm Fire & Casualty Company; Richard Fatzyntz, CPCU, Zone Catastrophe Coordinator, State Farm Insurance Company

This session will discuss the role insurance plays in disaster recovery. A panel of insurance experts will give easy to understand explanations of coverages available under most automobile, homeowners, and commercial insurance policies and how these coverages work. The panel will also discuss the claim process, how insurance companies react after a disaster, and why good interaction with emergency managers and disaster response personnel is critical in helping disaster victims piece their lives back together as quickly as possible.

Role of VOAD-Voluntary Organizations Active in Disaster (R&R) - 2:15 pm, Thursday, May 1, Rolling Chair

Presented by: Cathy McCann, Community Food Bank of New Jersey and Janet Sharma, Executive Director of The Bergen County Volunteer Center, and chair of the Bergen County VOAD.

This session will enable attendees to understand the benefits of establishing and utilizing County level VOAD/COADs (Voluntary Organizations Active in Disaster/Community Organizations Active in Disaster) in their planning, response, recovery and mitigation for disasters. Learn how the member organizations of these VOAD/COADs work in times of disaster and the programs they make available that go beyond traditional government programs. Hear the success stories of VOAD/COADs in New Jersey and how you can become a part of it.

Winter 2002-03 Review (Wx) - 2:15 pm, Thursday, May 1, Showroom

Presented by: Ray Krzudlo, General Forecaster at the National Weather Service office in Mt. Holly, NJ

A case study of the coldest and snowiest winter in the last seven years. After the mild winters of the past several years, this winter reminded us that cold temperatures, strong winds and wintry precipitation can still occur in our region. This review will cover the impact of this winter on the region.

Red Cross Role in WMD Incidents (DP) - 3:30 pm, Thursday, May 1, Rolling Chair

Presented by: Paul Carden, Director Emergency American Red Cross of Central New Jersey State Lead Chapter-Disaster Services and Holly Chmil, Disaster Services Readiness Associate, American Red Cross National Headquarters.

American Red Cross response structure and services provided in response to a Weapons of Mass Destruction/Terrorist event, the differences and similarities to our current structure and services.

USDOT Hazmat Transportation Security (P) - 3:30 pm, Thursday, May 1, GEC Hall 3

Presented by: David Lehman, United States Department of Transportation

A discussion of facility, en-route and personnel security considerations to enhance the security of hazardous materials in transportation. Also includes an overview of recent regulatory actions.

Critical Incident Stress Management (R&R) - 3:30 pm, Thursday, May 1, Showroom

Presented by: Cherie Castellano, Director, WTC-RSVP, University of Medicine and Dentistry of New Jersey, Newark Dr. James T. Reese, Consultant

Learn from an expert effective methods of dealing with stress during a critical incident

NJ Weather Net (Wx) - 3:30 pm, Thursday, May 1, Pageant Suite

Presented by: Dr. David Robinson, New Jersey State Climatologist and Chris Duvall, Office of the State Climatologist

This session will explain NJ WxNet, which is an online collection of weather and climate data, designed for professionals in research, forecasting, public safety, pest management, agriculture and education, as well as for the general public. The NJ WxNet collects real-time weather data from several independent networks. These data are then archived and disseminated via the World Wide Web. The goal of WxNet is to provide a comprehensive, high-quality, real-time network for environmental monitoring stations to benefit the residents of New Jersey.

USDOT Infectious Substances (DP) - 9:30 am, Friday, May 2, GEC Hall 3

Presented by: William Murphy, United States Department of Transportation

This session will provide an overview and discussion of the packaging and shipping requirements for the transportation of Infectious Substances under the 49 CFR.

Planning for Infrastructure Security (P) - 9:30 am, Friday, May 2, Pageant Suite

Presented by: Moderator: Fred J. Abbate, Executive Director, NJ Utilities Association. Panel members: James Guiliano, Director, Service Evaluation, NJ Board of Public Utilities; Michael Caffrey, Manager of Restoration, Conectiv Power Delivery; Sam Caldwell, Manager, Regulatory/Public Policy, Verizon; Renee DiNardi, Manager, Corporation Issues, Public Service Electric and Gas; Kevin Winn, Director, Technical Services, United Water.

Hear from a panel of experts representing the Electric, Gas, Telecommunications, and Water industries what steps are being taken to protect our critical infrastructures.

National Guard Role in Response and Recovery (R&R) - 9:30 am, Friday, May 2, Showroom

Presented by: Deputy Adjutant General Maria Morgan and M.G. George Garrett

Since 9-11, the NJ National Guard has responded to WMD and terrorist incidents throughout the country. This session focuses on what the Guards role in the response and recovery phase of a disaster. You will learn what resources are available and what to expect from the Guard when responding to a major incident.

December 2002 Christmas Day Nor'easter (Wx) - 9:30 am, Friday, May 2, Salon 7 & 9

Presented by: James Eberwine, Marine Program Leader and Art Kraus, Senior Forecaster, National Weather Service, Mt. Holly, NJ

Take a close look at the Christmas Day 2002 coastal flooding event, one of the most significant of the 2002-03 winter season.

This study will cover the track and intensity of the storm; and what made this particular storm challenging to forecast.

A portion of the presentation will cover how you can receive information via NOAA Weather Radio.

Public Health Bio-terrorism Preparedness (DP) - 11:00 am, Friday, May 2, GEC Hall 3

Presented by: Tracey McArdle, Health Officer, Atlantic County Division of Public Health; Joseph Kolokowski, NJ State Department of Health and Senior Services, Coordinator of Emergency Services.

In December 2002, President George W. Bush announced a national plan for smallpox vaccinations in order to be prepared in the event of a terrorist attack utilizing the biological agent. NJ was required to submit a statewide plan to the CDC for review. The first step of the plan was to vaccinate 2 teams. The Public Health Response Team is comprised of state and local public health workers and select law enforcement officers who will be responsible for investigating possible or confirmed cases of smallpox. The Hospital Health Care Response Teams are comprised of clinicians and support staff that will be responsible for treating initial victims of smallpox. The presentation will give an overview of how the NJ Department of Health and Human Services and the Atlantic County Health Dept are implementing the state and national vaccination plan.

Media Panel Discussion (P) - 11:00 am, Friday, May 2, Salon 7 & 9

Presented by: Lt. Al Della Fave, NJ State Police, Public Information Unit, Moderator; John J. O'Brien, NJ Press Association; Arlene Turinchak, NJ Press Association; John Weber, 101.5 FM Radio Station.

This panel will focus on disaster-related media concerns, developing successful working relations with media representatives and public information strategies which enhance the safety and recovery of the citizens in a post-disaster environment. Due to all the heightened alert, this session will focus on what the media is looking for from us to relay information to the public.

Communications Hierarchy (R&R) - 11:00 am, Friday, May 2, Showroom

Presented by: Michael Caffrey, Conectiv Power Delivery; Panel Members: Joseph Burlew, NJ Task Force One, Al Labinski, Camden City OEM Radio Officer/RACES Program Manager, Robert Schroeder, Officer New Jersey OEM, John Scoggin, Conectiv Power Information Services, Delaware MARS offices.

The purpose of this panel is to bring ideas and solutions for alternative communications to the emergency service community during times of need. The panel members are representatives from private sector and emergency management with a common goal: emergency response and communication. We encourage everyone with an interest in emergency communication, disaster preparedness or helping the community at large, to participate in this discussion on alternative means of communication.

August 2002 Monmouth County Weather Event (Wx) - 11:00 am, Friday, May 2, Pageant Suite

Presented by: Harry Conover, Monmouth County Emergency management Coordinator

Hear from a panel of experts representing the electric, gas, telecommunications and water industries what steps are being taken to protect our critical infrastructure.

Keynote Speakers:

Max Mayfield, Director of the Tropical Prediction Center / National Hurricane Center

Tropical cyclone climatology for the Northeastern US; the need for state and local area preparedness; lessons learned from applicable landfalling storms last season that might be applicable.

Marc Hodges, HAZMAT Trajectory Analyst

HAZMAT is a small division in the Federal Government that responds to over 100 spill events per year in all US coastal and navigable waterways. These include oil, chemical, search and rescue and other incidents. A subset of challenging oil and chemical spill events will be discussed and how communication with state and local agencies must be tightened to achieve a better and trajectory product. HAZMAT homeland security activity and local area contingency planning will be reviewed.

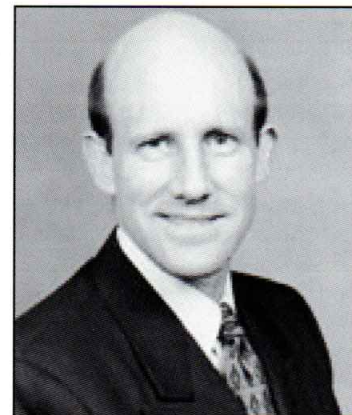

Dr. Steve Lyons

The Weather Channel

Steve Lyons comes to us today with expertise in Tropical and Marine Meteorology. He has participated in more than 25 national and international conferences and provided World Meteorological Organization training courses in marine meteorology, tropical meteorology and ocean wave forecasting.

Prior to joining The Weather Channel in April 1998, Steve managed the Tropical Analysis and Forecast Branch of the Tropical Prediction Center, National Hurricane Center.

Exhibitors

3E Company is the industry-leading provider of environmental health and safety information management and compliance services. 3E delivers HazMat compliance and incident management through a comprehensive business process outsourced solution.

The Atlantic/Cumberland Chapter of the **American Red Cross** is recognized as the leader in providing relief to the victims of disasters and services to military personnel, while educating our communities in the prevention of, preparedness for and response to emergencies.

ARAMSCO is a distributor of Environmental Safety & Domestic Preparedness Products including chemical and biological personal protective equipment, gas detection equipment, respirators including gas masks and SCBA and decontamination products including systems approved mass casualty decon.

Atlantic Business Communications is an authorized dealer for both Motorola® and Kenwood® 2-Way Radios, as well as Nextel™ Direct Connect. ABC has the right communications package for your needs, whether business or personal. Contact number: 609-272-0606.

Brady Worldwide - Sigmark Division specializes in facility identification to help companies comply with safety regulations. Products include safety signs, pipe markers, labeling systems and lockout tagout devices.

Breathe Safe provides sales, service and training of emergency services, fire and safety equipment. MSA, Quaker Safety, Lakeland, Beta Boots, Haz-Mat gloves, Gas Detection, SCBA.

Canberra is the world's leading supplier of analytical instruments systems and services for radiation monitoring.

Community Alert Network®, Inc. is a unique telecommunications service which assists communities when emergency information must be disseminated to large numbers of people in a short period of time.

Conectiv, a Pepco Holding Inc. company, focuses on two core energy businesses, Conectiv Power Delivery and Conectiv Energy. Conectiv Power Delivery provides safe and reliable regulated electric or natural gas delivery service to over one million customers in New Jersey, Delaware, Maryland and Virginia. Conectiv Energy operates a portfolio of highly flexible power plants within the Mid-Atlantic region and uses a wholesale merchant unit to optimize the value of its energy portfolio. In New Jersey, Conectiv Power Delivery serves customers in Atlantic, Cape May, Cumberland, Gloucester, Salem and portions of Camden, Burlington and Ocean counties. Conectiv Power Delivery works year-round to make significant investments to maintain its system and to keep pace with the area's growing demand.

Core Mechanical Contractors, Pennsauken, New Jersey, 24 hour full mechanical service company. Specializes in HVAC, boilers, chillers, generators and automatic transfer switch repairs. Sales installation with indoor air quality experts. Emergency resource equipment rental division with a 2-hour response time available to supply and connect;

Emergency generators, boilers, cooling units and high pressure pumps.

DCC's The Communicator!™ high-speed notification system automates any manual call-out procedure when critical situations (ie: power outages, inclement weather, criminal activity, etc) threaten public safety.

DeMario Design & Screen Printing - Screen Printed and Embroidered Apparel including tees, hats, vests, workshirts and pants. All work done on premises; full service art department; Union Shop.

The Domestic Preparedness PAVILION exhibits critical technology in the areas of chemical, biological, radiological detection, personal protective equipment and respiratory technology, decontamination and training. This program integrates with Domestic Preparedness.com and the FIRST RESPONDER NETWORK and is distributed by Fire Chief and Law and Order magazines.

DuPont Personal Protection - "Safety You Can Wear". The complete line of limited use and reusable clothing made of DuPont®, Tychem®, StaSafe®, Nomex®, Kevlar® and ProShield®.

E Team is the market leader in providing enterprise-level collaborative software for incident management to public agencies and corporations for use in emergency management, disaster preparedness and recovery, homeland security, biodefense and facility/event security.

Emergency Management Advisors (EMA) are one of New Jersey's leading consulting firms in emergency preparedness and recovery. They offer expertise in vulnerability analysis, public alerting, emergency planning, cost recovery and training.

Emergency Preparedness Partnerships (EPP) helps organizations of all kinds to prepare for the unexpected by providing a full range of emergency planning services. In close partnership with our clients, we audit, evaluate and update emergency preparedness plans, design and administer drills and exercises and provide the training, communication and education services needed to assure successful plan implementation and recovery. Our partnership approach assures real-world, no-nonsense methods and solutions designed to fit the specific emergency management needs of each of our clients. Visit us online at www.emergencypreparednesspartnerships.com or call us at 609-704-0266.

ESRI is the world leader in the geographic information system (GIS) software industry. ESRI software helps you accomplish tasks faster, easier and more efficiently. For more information, visit www.esri.com.

ESRI

The Federal Emergency Management Agency (FEMA) is responsible for leading America's efforts to prepare for, respond to, recover from and mitigate against disasters.

Federal Signal provides a comprehensive line of products designed for alerting and informing the public of emergency situations.

FirstCall Network, Inc. is a high speed community, industry and business emergency telephone, pager and wireless device notification network which utilizes a proprietary computer mapping system with integrated residential and business telephone numbers and address information.

GenPrime's newest product, the Prime Alert, is used by emergency management teams to determine if an unknown powder sample contains microbes, including bacteria and bacterial spores. It allows first responders to rapidly determine if an unknown powder presents a credible bioterrorist threat or is a harmless nuisance.

When Emergency Managers need operational and logistical support for their operations, they turn to **HMHTTC Response, Inc.** for cost effective solutions delivered with the "firehouse" mentality. Check out our website at www.hmhttc.com.

HVAC Portable Systems, Inc. is a specialized provider of temperature control and power generation equipment. Rental solutions include chillers, air conditioners, heaters, dehumidifiers and generators.

INFICON designs manufacturers and markets field-portable instruments for on-site environmental assessment, characterization and monitoring.

Jersey Central Power & Light Company is now part of the FirstEnergy family of companies that provide safe and reliable electric service to 4.3 million customers in New Jersey, Ohio and Pennsylvania. As the nation's fourth-largest investor-owned electric utility system, FirstEnergy's operating companies meet the energy needs of customers. And, as your neighbors who live and work in New Jersey, JCP&L employees contribute thousands of volunteer hours to support non-profit organizations in our communities. Jersey Central Power & Light - our energy is working for you.

Established in 1868, **Julius Kraft Co. Inc.** is a fifth-generation family owned distributor of safety equipment (domestic preparedness supplies), fixed & portable instrument repair services, environmental equipment rentals and survey programs.

LAURUS Systems, Inc. - Instruments and Software Solutions for a Safer World, provides instruments and software for radiation detection and contamination monitoring. LAURUS offers dosimeters, hand-held radiation detectors and air and portal monitors.

Meteorlogix (www.meteorlogix.com) delivers industry-specific weather management capabilities for its customers to manage weather-related business risks, maximize personal safety and minimize financial loss.

Motorola is a leading provider of integrated communications and information solutions dedicated to meeting the critical requirements of public safety, public service and enterprise customers worldwide.

Municipal Emergency Services, Inc. is a master distributor for the latest manufacturers in the fire/safety industry. They have twelve locations in the USA with over 100 salespeople.

New Jersey Animal Working Group is a cooperative interagency committee of government and animal organizations, collaborating to develop and implement a coordinated animal emergency response plan.

New Jersey Department of Environmental Protection assists residents in preserving, sustaining, protecting and enhancing the environment to ensure the integration of high environmental quality, public health and economic vitality.

New Jersey Division of Fire Safety

New Jersey Forest Fire Service is a unit within the Department of Environmental Protection, Division of Parks and Forestry. It is statutorily mandated to provide wildland fire suppression, pre-suppression and prevention on approximately 3.25 million acres of New Jersey's public and private land.

New Jersey HazMat Responders Association - The purpose of this association is to enhance the professionalism and education of individuals and organizations charged with emergency handling of hazardous material incidents.

New Jersey Office of Emergency Management is responsible for coordinating and facilitating all emergency management mitigation, preparedness, response and recovery operations in New Jersey. Four bureaus, including Operational Planning, Emergency Management, Communications and Operational Dispatch form the core of the organization. Through comprehensive and strategic planning, responder training and exercising the NJOEM utilizes an all-hazards approach to fulfilling its mission. Special program emphasis is applied to unique hazards such as hurricane evacuation, domestic preparedness, terrorism and risk reduction. www.state.nj.us/njoem/.

The **New Jersey State Climatology (Rutgers)** has a threefold mission of data, research and outreach. View the latest hourly data throughout NJ at <http://climate.rutgers.edu/stateclim> via the NJWxNet.

The **New Jersey Voluntary Organizations Active in Disaster (NJVOAD)** coordinates planning efforts by many voluntary organizations responding to a disaster, be it statewide or more localized.

New Jersey Task Force 1 is a volunteer team made up of members from the fire, police, emergency medical and private sector communities that are specially trained to respond to collapsed structures, trench collapse, swift water rescue, confined space rescue, rope rescue incidents and other major man-made or natural disasters. NJ-TF1 is trained, equipped and staffed according to the Federal Emergency Agency's, Urban Search and Rescue standards. NJ-TF1 members are assigned to one of five operational components: Rescue, Medical, Logistics, Planning and Search. www.state.nj.us/njoem/worldtrade6.html

Nextel Communications, a Fortune 300 company based in Reston, Va is a leading provider of fully integrated wireless communications services and has built the largest guaranteed all-digital wireless network in the country, covering thousands of communities across the United States.

North American Catastrophe Services, Inc. NASC specializes in post-disaster temporary housing and custom built, technologically advanced, Mobile Command Centers. Our temporary housing programs are driven by the latest FEMA regulations thereby insuring your community's proper reimbursement. We are capable of setting up a single unit or thousands of units. Our housing packages are turnkey operations that provide set up, maintenance, management and deactivation.

NOAA's National Weather Service provides weather, water and climate forecasts and warnings for the protection of life and property and the enhancement of the national economy.

Rockland Electric Company, a subsidiary of Orange and Rockland Utilities, Inc., provides electric service to homes and businesses in northern Bergen, Sussex and Passaic counties in New Jersey. Proud of its reputation for reliable delivery, service excellence and community involvement, Rockland Electric is pleased to participate as a corporate sponsor in this year's Emergency Preparedness Conference. For more about our customer and community programs, please visit us at www.oru.com.

PSEG is a \$2.1 billion energy and energy services company with three major subsidiaries: PSE&G, a regulated electric and gas distribution business, PSE&G Power, a major US power producer and PSE&G Energy Holdings. Public Service Electric and Gas Company (PSE&G), is one of the largest combined electric and gas companies in the US and is NJ's oldest and largest publicly owned utility. PSE&G is the major supplier of electricity and gas in NJ, serving 1.6 million gas customers and 2 million electric customers in more than 300 urban, suburban and rural communities, including NJ's six largest cities and consisting of a 2,600 square mile service area. PSE&G Power is a major unregulated independent power producer in the US with three main subsidiaries: PSE&G Fossil, PSE&G Nuclear and PSEG Energy Resources and Trade.

Rapid Response emergency response teams are equipped to handle any hazmat emergency from Level D to Level A, 24 hours a day, 7 days a week. We are designed to handle chemical spill response and clean-up, oil/fuel spill clean-up, cargo recovery, incident management teams, explosives and more.

Reverse 911® is the interactive community notification system designed so a single individual can quickly create and launch an emergency or non-emergency message in just a few moments using pre-defined database lists and ESRI mapping technology. Reverse 911® can simultaneously contact your staff wherever they are (via phone or pager) and deliver detailed information and instructions to targeted groups of the general public.

For over 23 years, **Safeware** has established itself as one of the leaders in the distribution of Safety, Technical and Emergency Management Products. We support industry and government agencies with traditional safety products and services as well as products and expertise in domestic preparedness and response. We service and repair; gas monitoring, indoor air quality, self-contained breathing apparatus and fall block equipment.

Smiths Detection is the worlds leading supplier of trace detection equipment which identify threats posed by explosives or chemical and biological agents.

South Jersey Gas, a subsidiary of South Jersey Industries, provides natural gas to over 296,000 customers in Atlantic, Cape May, Cumberland, Salem, Gloucester, Burlington and Camden counties.

State Farm in proud to have been associated with the New Jersey Emergency Preparedness Association and their annual conference for the past four years. Our mission is to help people manage the risks of everyday life, recover from the unexpected and realize their dreams. Our sponsorship of the NJEPA is just one of many ways we work with local organizations to accomplish that goal. State Farm is the leading insurer of cars and homes in the United States. The 79,000 State Farm employees join 16,600 agents in servicing more than 71 million auto, home, like and health insurance policies. State Farm is now offering customers a broader range of like insurance and financial service products, including State Farm Mutual Funds™ and State Farm Bank deposit and loan products.

Stevens Institute of Technology - New Jersey Sea Grant Cooperative Extension in Coastal Processes - promotes sustainability and wise use of our coastal resources through public outreach and science-based research.

Sunbelt Rentals has several regional locations, which can provide specialty rental solutions for temporary power distribution, emergency fluid handling, dehumidification and remediation equipment, as well as your general tool rental needs. 24-Hour Emergency Response 888-334-7570.

Super Nova is a premier distributor of personal protection equipment for first responders, US Military groups and emergency medicine personnel. Please visit our website at www.protective suits.com.

TANDBERG From initial installation to upgrades and expansions, **TANDBERG** maximizes your video conferencing investment. We have the industry's most accomplished research and development team which delivers practical innovation - making systems easier to deploy, easier to operate and more cost effective.

TekTron is a Platinum Plus Dealer and a manufacturers representative for M/A-COM, delivering large-scale voice and data solutions - such as the statewide systems in Florida and Pennsylvania, as well as solutions to meet the emergency communications and interoperability requirements of first responders at the federal, state, county and local municipality levels.

Tele-Measurements Inc. is a full-service systems integration company, specializing in presentation, distance learning and videoconferencing systems. Our company has held NJ state contracts on these systems since 1996.

Special Emergency Team (SET)

North America's quick response solution to devastating power outages and helping you to optimize your existing plan.

Accidents, natural disasters and human action can strike without warning. They know no boundaries. We are SET to meet any power restoration challenge. Are you?

Why choose Hydro-Quebec?

- Proven expertise in emergency power restoration in the U.S. and Canada
- Ability to deploy dozens of mobile line crews
- High-tech equipment, a large fleet of vehicles and a multidisciplinary team of experts
- Substantial savings, given the favorable exchange rate

We also offer:

- Assistance in helping you to optimize your existing restoration plan and/or procedure
- Access to our information knowledge base, and we can tailor our expertise to your specific needs

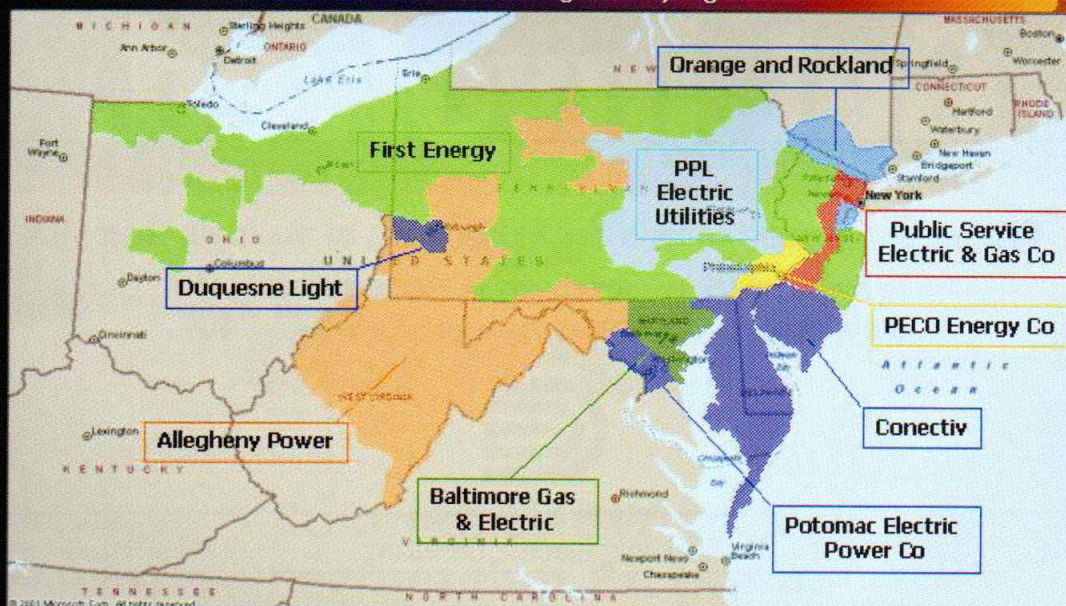

Hydro-Quebec: one of North America's leading distributors of energy

 **Distribution Services**
A subsidiary of the Hydro-Québec Group

Mid-Atlantic Mutual Assistance Group

A group of utilities who's mission is: to provide a forum to ensure safe, effective, coordinated regional restoration efforts in the best interest of our customers and to develop a better understanding and communications with First Responders, Local Officials and Regulatory Agencies

Mid-Atlantic Mutual Assistance Group would like to thank the New Jersey Emergency Preparedness Conference for the opportunity to attend.

Concerned about being prepared for an emergency?

Haven't tested your plan in some time?

Troubled by the fact that you just don't have
the time to focus on emergency preparedness?

You are not alone - EPP is here to help you

Unfortunately, not every business has the experience, the plan, the time or the resources necessary to protect against disasters that may be infrequent but potentially devastating.

Emergency Preparedness Partnerships offers a range of services that help your organization plan, prepare for and mitigate the disruptions caused by severe storms, hazards and other potential critical incidents.

Call today to schedule a complimentary consultation.

New Jersey Emergency Preparedness Association

Community

It isn't defined by boundaries or geography,
but by how we're all connected.

From wiring schools and libraries for the Internet to laying fiber optic cable throughout the state, we see every link we make as an opportunity for people to connect, and, perhaps, better understand each other.
