

# WILD ON WOUNDS

BROUGHT TO YOU BY:

## Objectives

- Discuss how current evidence-based practice and an interprofessional wound care team can impact wound management and ostomy care.
- Choose the most current skin and wound care solutions to achieve skin and wound management and ostomy care goals.
- Demonstrate hands-on skills the healthcare team can immediately use at the bedside to improve patient outcomes.
- Identify resources and interventions that can be utilized to promote client independence in physical, social and mental well-being.
