

3rd International Congress On Mobile Devices And Seizure Detection In Epilepsy

October 28 - 30, 2021 Copenhagen, Denmark

SPONSORSHIP FILE

It is a pleasure to welcome you to the 3rd International congress on mobile health devices and seizure detection in epilepsy in Copenhagen Denmark from October 28-30, 2021.

Recent advances in signal analysis and information technology have triggered a boom in the field of mobile health, with important applications to the management of patients with epilepsy, including seizure detection.

The International Congress on Mobile Health and Seizure Detection in Epilepsy became an important forum to disseminate, facilitate and accelerate progress in the development of mobile health solutions and seizure detection devices for patients with epilepsy.

The third edition of the congress will enhance information-exchange among researchers, high-tech companies, medical organizations and patients' organizations facilitating networking, development of joint projects and collaborations in this quickly developing field.

In addition, interactive, educational hands-on sessions will contribute to the dissemination of novel technologies.

Co-chairs:

Professor Sándor Beniczky (Denmark)

Professor Philippe Ryvlin (Switzerland)

Main topics:

Automated seizure detection in long-term video-EEG monitoring

- Automated seizure detection using wearable devices
- Seizure prediction: are we there yet?
- Objective seizure quantification and characterization
- Epilepsy apps: are they really changing the game?
- Telemedicine: are changes in practice caused by COVID-19 here to stay?
- Regulatory issues and reimbursement
- Future research and development: in the aftermath of the clinical practice guideline on seizure detection.

We wish you all very welcome to Copenhagen!
