Larry J. Hershman
Managing Partner, Black Cipher Security, LLC

Larry serves as the Managing Partner of Black Cipher Security. He provides expertise and leadership in the areas of cybersecurity, business process analysis, data compliance, systems interoperability and project management. Larry has spent over 25 years in management and technology consulting, helping companies to adopt and assess the appropriate technologies in order to achieve their business goals.

 His expertise and understanding of cyber security concepts and the application of compliance requirements has been honed through his leadership of many security and compliance initiatives, including Payment Card Industry (PCI) readiness projects, Title Industry ALTA Best Practices certifications, HIPAA compliance reviews and FFIEC Banking practices.

 Larry's professional organizational memberships include InfraGuard, Information Systems Security Association (ISSA), Health Information and Management Systems Society (HIMSS) and Institute of Management Consultancy. Larry received his Bachelor's in Computer Science from Temple University.
